“I HIGHLY recommend them!”

“Working with ACTexas was a great experience from start to finish. I would highly recommend them for any HVAC work that you may need from brand new install, repair, maintenance, or just an evaluation of your current HVAC system. They have great knowledge, experience, work ethic and customer service.”

★★★★★
Ramil M

“The technicians at ACTexas gave me lots of options including modifying my old system (which was cheaper but just buying time). I opted to replace the entire system! My AC bills have been half what they were this time last year! They worked so hard and did an amazing job! They were very honest about the cost (no hidden fees).”

★★★★★
Angela W.

“I had an excellent experience with James. He is solid guy whom you can tell loves his work. Not only did he assist me with repairing my AC...on a Sunday. He gave me priceless knowledge and he wasn't even scheduled to work. I pray this work ethic stays around for years to come. Workers like James are very hard to find. He should definitely be rewarded for all his hard work.”

★★★★★
Matthew T.

Superior Quality Heating & AC Repair Services in Spring, TX & Beyond

At ACTexas, your comfort is our priority. Our licensed technicians proudly provide **residential** and **commercial** HVAC services. In fact, ACTexas, located in Spring, TX and The Woodlands, TX, has served the greater Houston area since 2002. The secret to our longevity and success is our passion for building genuine relationships with our customers, helping them keep their homes and businesses comfortable and safe for years to come. We pride ourselves on our reliability and our advanced heating and AC knowledge.

Choose ACTexas for excellent customer service and fast HVAC repair. We're here to solve all of your HVAC problems quickly. With an A+ BBB rating and 4.9 stars on Google, your HVAC system is in good hands with us.

See an overview of our main HVAC services below, or check out our [FAQ section](#) for more details on AC repair, heating, and air duct cleaning.

Air Conditioning Repair Services in Spring, TX

What temperature do you set your air conditioning at to survive Texas heat? Chances are, your system is working overtime. If you need immediate assistance for a broken fan motor or other problem, count on a certified technician from ACTexas to get you through the Texas summer.

Wondering what should a new AC unit cost or when is it time to replace central air conditioner units? We can answer your questions about the best AC unit for your home or business.

questions and help install a new AC unit! The average air conditioner settings for summer in Texas can leave you with a hefty electricity bill. Our energy-efficient consultation helps homeowners and businesses save big on energy bills, and we also offer:

- Multi-point home cooling inspections
- Regular HVAC maintenance plans
- Professional **WiFi thermostat installation** for your house

Step into the future and maintain your optimum summer AC temperature with a reliable system and regular maintenance from ACTexas. We're committed to great service, fair prices, and fast response times, so you won't have to wait days for emergency repairs. We understand the urgency that comes with having a broken air conditioner in Texas, and we are often able to set up same-day appointments to repair the problem as soon as possible. If your AC unit won't start --- or makes excessive noises when it does --- our AC repair team is here for you.

Make ACTexas your trusted AC company in the north Houston communities. To schedule **residential AC repair** or **commercial AC repair** services, call us at (281) 355-1500.

Heating Contractor & Furnace Repair Services

ACTexas specializes in furnace repair, service, and maintenance. If you are having trouble turning your heater on or your burner isn't lighting, we're here to fix it. We also perform new residential and commercial furnace installation and help you select an energy-efficient furnace that fits your building's size and needs. We service and repair all brands of furnaces, whether or not we installed them.

With ACTexas, your heating system will be serviced in a timely manner and for a reasonable price. We even perform detailed multi-point heating inspections to catch problems before they begin. ACTexas uses only the most reliable, high-quality, energy-efficient air conditioning and furnace equipment available, and all of our installation and service technicians are factory-trained, EPA certified, and NATE certified. Often, we are able to complete same-day heating repair and installation services.

Keep your home comfortable this winter with tune ups from ACTexas, and protect your family against the dangers of gas furnace malfunctions by changing furnace filters regularly. For more on **residential heater repair** or **commercial heater repair** call us at (281) 355-1500.

Air Duct Cleaning Service in Spring & The Woodlands, TX

Did you know your HVAC unit and ducts need regular cleaning? Allergens such as pet dander in air ducts cause serious problems like blockage of the filter or blockage of the indoor coil. Dirty air conditioner coils also weaken your system and lead to costly repairs. Dirty air duct risks include:

- Dust
- Dust mites
- Pollen

- Bacteria
- Mold and mildew
- Pet hair and pet dander

Every time your HVAC system kicks on, these pollutants circulate throughout the air in your home. Luckily, our licensed technicians know how to clean inside of air conditioner units to extend their lifespans as much as possible and preserve your health. We are also skilled in AC duct replacement, air vent cleaning, and more.

In addition, our **air duct sealing** service helps you save money on utility bills and improve air quality. We start by inspecting your home's entire duct system and pinpointing vulnerabilities. Next, we will promptly repair leaks and ensure that there are no kinks in the ducts that could restrict airflow. If a duct is beyond repair, we can provide a replacement.

With modern homes being more airtight than ever --- with little outside ventilation --- it's important to think about how to clean AC filters, AC air ducts, coils, and more. To schedule commercial or residential **air duct cleaning** service in Spring and The Woodlands, give us a call now at (281) 355-1500.

Indoor Air Quality Improvement

For several years in a row, the EPA has ranked indoor air pollution among the top five risks to public health. People that live in homes with poor air quality experience more frequent headaches, coughing or wheezing, sinus congestion, skin irritation, and more.

Poor indoor air quality in a business can also lower productivity, reduce customer traffic, and negatively impact the health of your employees. On the other hand, a comfortable environment boosts productivity and sales and provides allergy relief.

Besides air duct cleaning, ACTexas provides a variety of other services to improve indoor air quality for homes and businesses. If you notice a constant musty odor in your house, mold and other bacteria could be growing in your air conditioner system. This problem will worsen over time, so call an experienced HVAC company to evaluate your air conditioning unit ASAP. Our indoor air quality solutions include an **air cleaner**, **UV light**, **air scrubbers**, and **REME Halo** to improve the indoor air quality in your home, as well as air duct cleaning and dryer vent cleaning services. Each of these provides unique benefits to your home's air quality and your overall quality of life.

It's time to breathe easier. Explore **residential air quality** improvement and **commercial air quality** improvement for your home or office by calling our local experts at (281) 355-1500.
